Rail Supply Growth Fund

The Railway of the future can only reach its potential if supported by an innovative and responsive supply chain.

We have designed the fund to support the Rail Supply Group strategy

Access to £20million fund

Increase capability and productivity of businesses

Increase global competitiveness

Accelerate routes to market

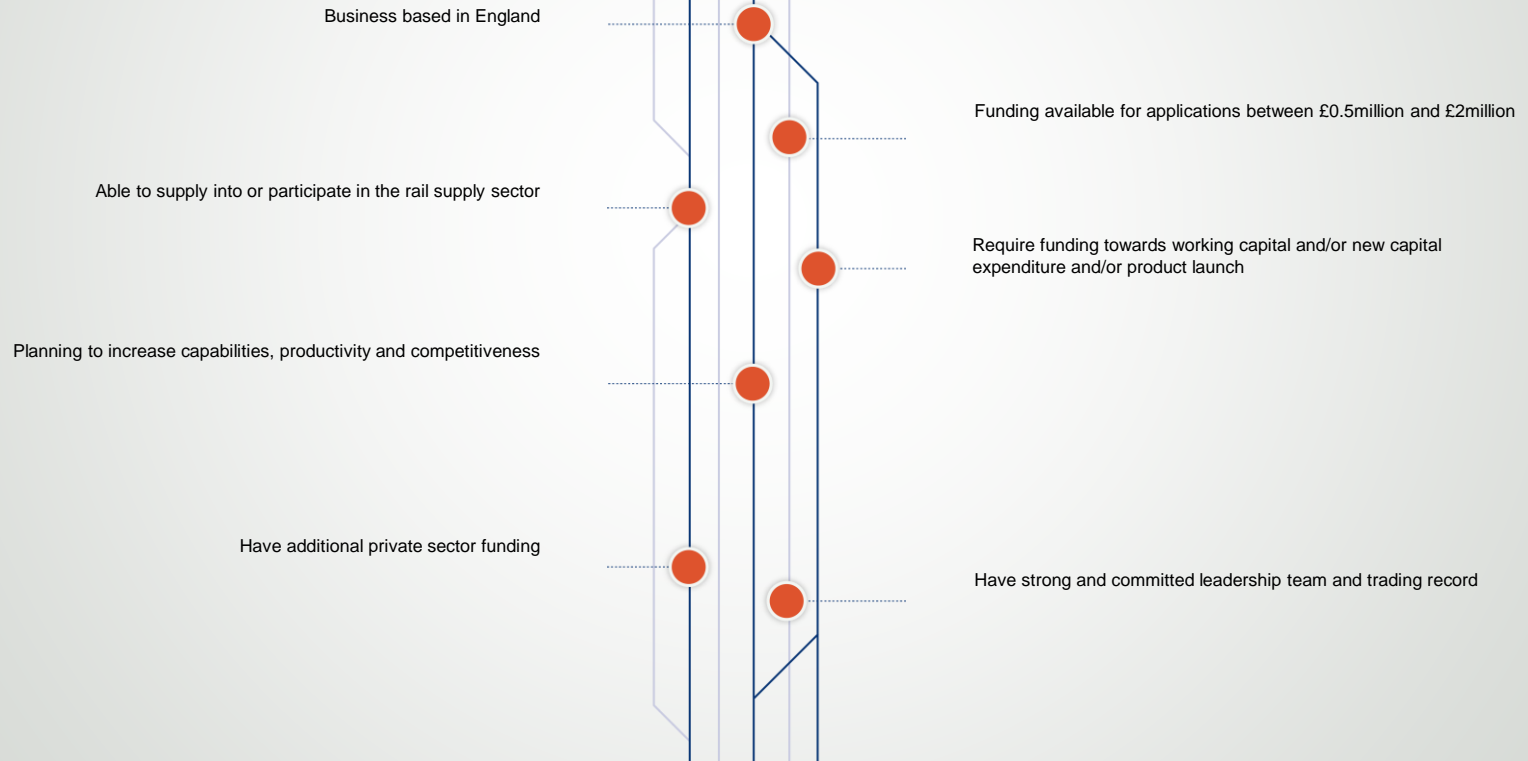

Crossover of products and services into the growing rail supply sector

Helping to meet the demands of the future.

Process to acquire funding

Eligibility for the fund

Process to acquire funding

Securing your funding

1

Explore your requirement through an expression of interest form and a discussion with the Finance Birmingham team

2

Complete an application

3

A commercial, technical and financial assessment will be undertaken

4

A case for investment will then be considered by the Independent Investment board

5

Once approved documentation will be completed and funds available to draw down
